F^UTENSILIOS^IO^S

12 UTENSILIOS

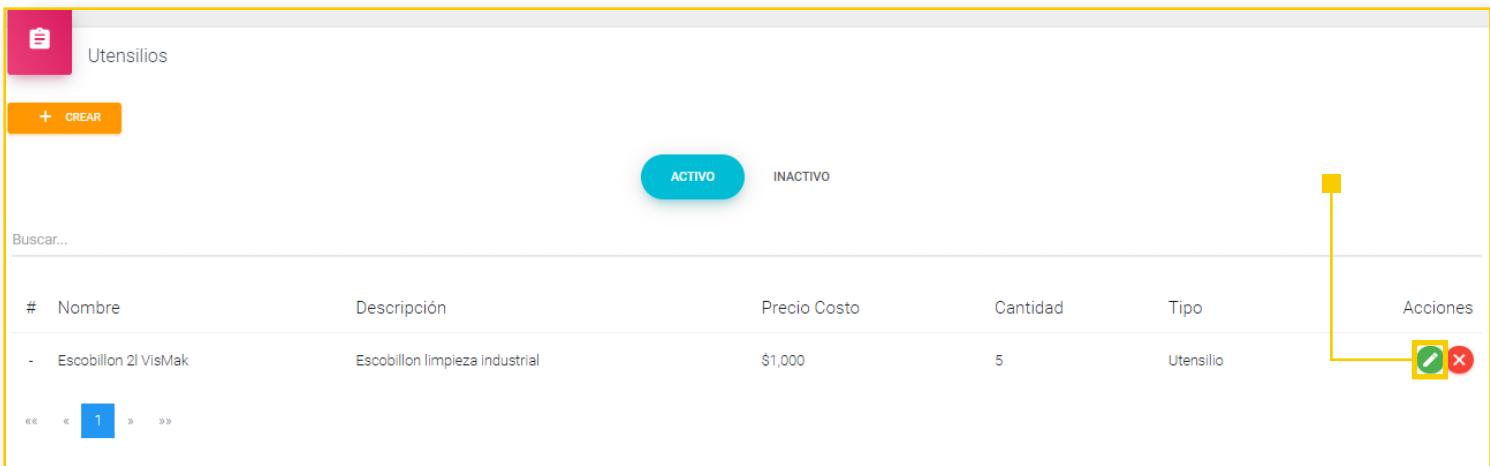

12.1 Crear utensilios

- Ir hacia la barra lateral y desplegar el módulo de “Bodega”.
- Seleccionar el módulo de “Utensilios”.
- Hacer clic en el botón “Crear”.

12.2 Editar utensilios

- Hacer clic en el botón verde “Editar utensilio”.

12.3 Eliminar utensilios

- Hacer clic en el botón rojo “Eliminar utensilio” .

The screenshot shows a web-based application for managing tools ('Utensilios'). At the top left is a pink icon with a white document symbol. To its right is the page title 'Utensilios'. Below the title is an orange button labeled '+ CREAR'. In the center, there are two filter buttons: 'ACTIVO' (highlighted in blue) and 'INACTIVO'. A search bar labeled 'Buscar...' is positioned below the filters. The main area displays a table with columns: '#', 'Nombre', 'Descripción', 'Precio Costo', 'Cantidad', 'Tipo', and 'Acciones'. One row is visible, showing 'Escobillon 2l VisMak' as the name, 'Escobillon limpieza industrial' as the description, '\$1,000' as the price, '5' as the quantity, and 'Utensilio' as the type. The 'Acciones' column contains a green circular icon with a white checkmark and a red circular icon with a white 'X'. A yellow callout box points from the text 'Hacer clic en el botón rojo “Eliminar utensilio” .' to the red 'X' icon. At the bottom of the table are navigation icons: double arrows, a single arrow, a number '1' in a blue box, and double arrows.
